- To determine the time and date of your examination, find the time your class **lecture** meets and look to the left of the row to find the **day** of the exam, and to the top of the column for the **time**. You have to find your class name first (red color) and if it is not written, find the class lecture time. A final exam for each class will be held at the time as designated on the table above. Each class time specified in each time slot is the time that corresponds to the LECTURE time schedule, not the RECITATIONS, SEMINARS or LABORATORIES.

- The last exam of the course, whether comprehensive or covering only a portion of the material, must be given during the Final Exam Period. Exceptions may only be granted by the Dean of Academic Affairs for compelling academic reasons. Students who find that a final exam has been scheduled during the last week of classes in any of their courses should contact the Academic Affairs at 032-626-1122.

- Unless otherwise announced, the examination will be given in the room where the regular class is held. Students taking evening classes must be careful to avoid conflicts with Evening Midterm exams and regularly scheduled classes and to avoid conflicts with Final Exams. **Instructors are not obligated to give makeup examinations to students in cases of such conflicts.**

It is the responsibility of the student to plan a class schedule that avoids exam conflicts and too many exams in the same day.
